1 Introduction

1.1 Background and Overview

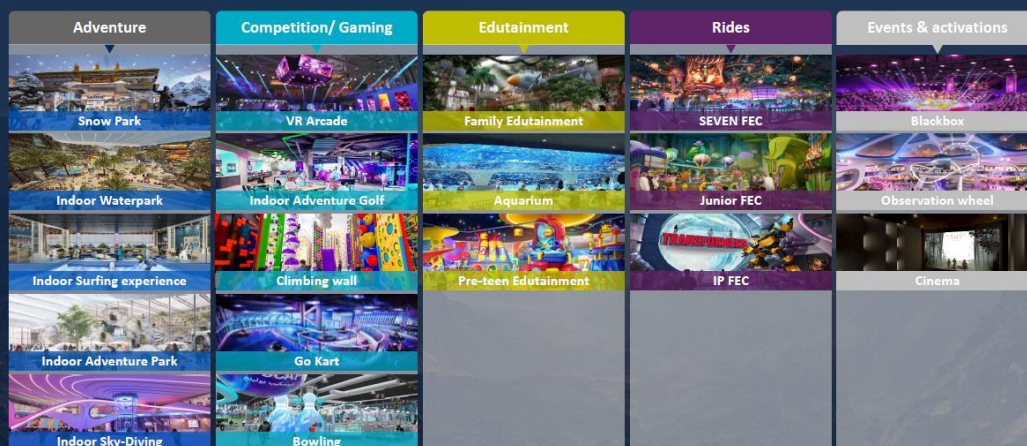

Saudi Entertainment Ventures “SEVEN” was established in 2018 by the Public Investment Fund (PIF) as part of the new sectors development initiative of the Vision 2030.

Today SEVEN has a diverse portfolio of 21 projects across 14 cities within the Kingdom

SEVEN’s GLA is comprised of two key components, core and ancillary offerings...

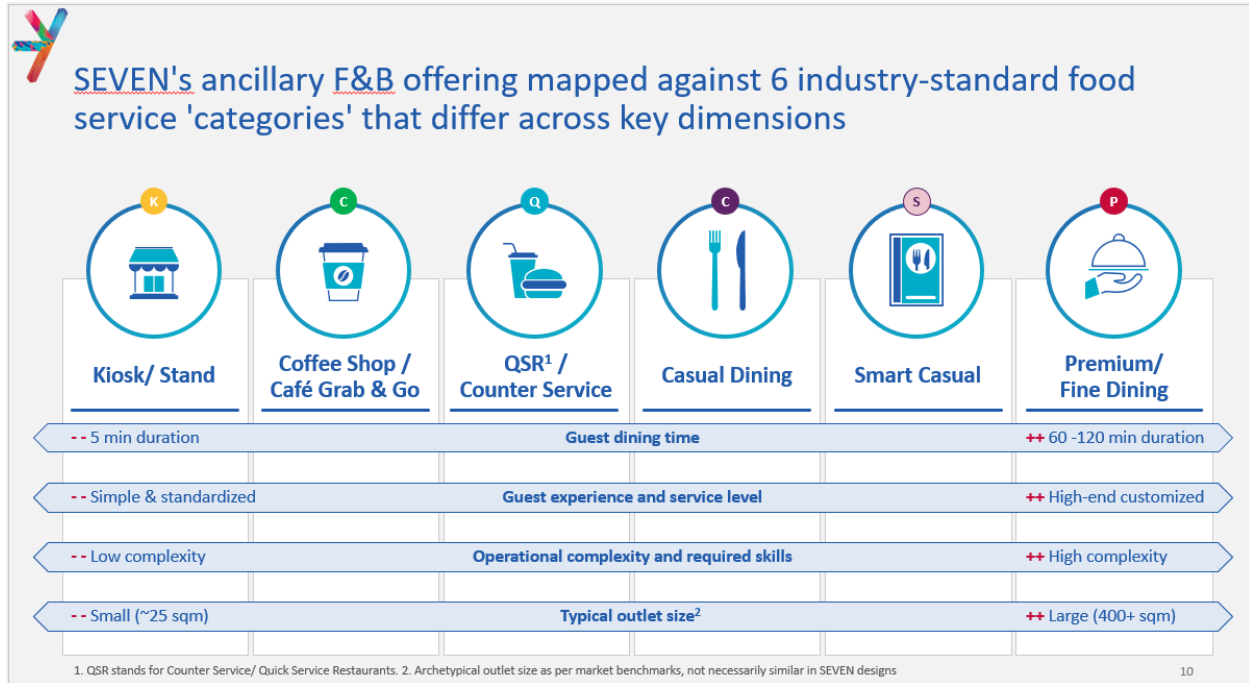

150 attractions are enriching our offerings, and were derived from 19 typologies ...

1.2 Project brief

SEVEN is looking to develop 21 entertainment complexes across 14 cities, this RfP is focused on 7 complexes as part of wave 1 which include 32 F&B outlets within its attractions, these outlets are broken down into six main experiences:

- Kiosks/stands
- Coffee shops/Café Grab & Go
- QSR / Counter Service
- Casual Dining
- Smart Casual
- Premium/Fine Dining

The F&B operator will be responsible for consulting on the concept of these location, managing and operating SEVEN's F&B outlets across the different locations within the kingdom, all expected to open in 2025:

	Kiosk	Café G&G	Casual Dining	Smart Casual
Al hamra		3	1	1
Tabuk	2	1	2	
Yanbu	1	1	2	
Al Madinah	2	1	1	
Abha	2	1	2	
Jazan	2	1	2	
Taif	1	1	2	

We identified the full value chain for the in-attraction F&B development, highlighting SEVEN's role vs. the operator in the table below:

Step	Activities
1. Market understanding Activity owner: lead by SEVEN supported by the operator	Identify the target market within the attraction and understand their dining preferences. Making sure we place the right target experience within the right attraction.
	Analyze the surrounding F&B offerings under the leasable area in SEVEN
	Define the expected visitor numbers and targeted spend for F&B outlets located within SEVEN's attractions.
2. Concept development Activity owner: Lead by SEVEN supported by the operator	Create a restaurant concept that complements the attraction's theme and enhances the overall experience.
	Determine the atmosphere, menu offerings, and pricing strategy that align with the target market.
3. Menu design (after the concept) Activity owner: lead by SEVEN supported by the operator	Create a menu that reflects the concept, appeals to the target market, and aligns with the attraction's experience, this has been created by SEVEN, the operator is required to do the review.
	When applicable: Incorporate thematic elements or signature dishes to enhance the overall experience. (specifically for IP attractions)
4. Business Plan Activity owner: Lead by the operator supported by SEVEN	Prepare a detailed business plan outlining the concept P&L and investment required from SEVEN and operator.
5. Assess the unit location Activity owner: Lead by SEVEN supported by the operator	Work closely with the attraction management to identify a suitable space within the attraction, and how to maximize offer versus square footage.
	Consider factors such as visibility, accessibility, foot traffic, and unit size.
6. Design and Construction Activity owner: lead by SEVEN the operator will be able to have an overview of the kitchen design	Design the restaurant concept in alignment with the cuisine and attraction theme.
	Develop plans that optimize space utilization and maximize revenue per sqm.
	Oversee construction, ensuring compliance with safety regulations and timely completion.
7. Equipment and Furnishings Activity owner: lead by SEVEN supported by the operator	Source kitchen equipment, furniture, and decor that align with the concept and budget.
8. Establish Supply Chain Activity owner: the operator	Identify reliable food and beverage suppliers. And align the list of suppliers with SEVEN.

	Negotiate favorable terms and establish efficient procurement processes.
	Implement inventory management systems to control costs and minimize waste.
9. Recruit and Train Staff Activity owner: the operator	Hire a skilled team, including chefs, servers, and managers.
	Develop a comprehensive training program focused on service standards, and safety procedures. SEVEN would need to have visibility of this and incorporate Saudization for example.
10. Menu maintenance Activity owner: by the operator	Review SEVEN's developed menus and provide recommendation on the final menu based on capability equipment, financial implication, and operational requirements
	Source quality ingredients and design recipes that can be efficiently executed in a high-demand environment, and adjust the menu accordingly. – in alignment with SEVEN
11. Marketing Activity owner: the operator leveraging SEVEN's internal capabilities and channels	Develop a marketing plan tailored to the attraction's visitors.
	Utilize the attraction/complexes marketing channels to promote the F&B outlet.
12. Pre-Opening Preparations Activity owner: the operator	Make necessary adjustments to the menu, service procedures, and systems as necessary with alignment with SEVEN.
	Ensure compliance with all regulations or permits associated with operating within the attraction.
	Train the staff to handle different scenarios, training manuals and standards should be aligned with SEVEN.
13. Daily Operations Activity owner: the operator	Monitor operations closely to maintain quality, and customer satisfaction through a clearly defined KPIs.
	Implement effective inventory management, and cost control practices.
	Continuously refine processes based on customer feedback and observed insights through continuous alignment with SEVEN.
14. Look ahead Activity owner: the operator	Regularly review financial and operational performance, identifying areas for improvement, through monthly reporting.

Apply industry trends and adjust the menu, and operations accordingly. (on quarterly basis)

Conduct continuous pricing assessment/adjustment if needed and the bundling deals when applicable

Scope of work

The scope will be split into two phases:

- 1- Phase 1: Pre-opening scope, covering the activities for development and pre-opening through a flat fee consultancy agreement.
- 2- Phase 2: operations scope, covering the in-attractions F&B operations, through a management agreement and shared revenue model.

Note: awarding a vendor for phase 1 does not guarantee awarding them for phase 2.

a. Consultancy of F&B offering (Phase one)

i. Brand review

- Evaluate the current branding of each F&B venue, this includes reviewing the full brand packages, and assess them against the targeted experience, location, and expected spend.
- Provide recommendations to align the brand identity with target market expectations and current market trends.
- The operator can recommend using their own brand, a brand to be developed by SEVEN, or brand by SEVEN in collaboration with the operator e.g., ("X" by the operator).

ii. Culinary Review

1. Menu Analysis

- a.** *Assess the current menus and recipes.*
- b.** *Review the existing menu items for relevance, popularity, and profitability.*
- c.** *Analyze how well the current offerings meet the tastes and dietary preferences of the target audience.*
- d.** *Propose modifications to enhance culinary appeal and operational efficiency (include assessment from cost/supply chain perspective).*
- e.** *Develop signature dishes that can serve as key attractions for each venue.*

2. Recipe Optimization

- a.** *Recipe Standardization: Ensure all recipes have standardized ingredient lists, preparation steps, and presentation guidelines to maintain consistency across all venues.*
- b.** *Cost Efficiency: Review ingredient lists and preparation methods for cost efficiency without compromising on quality. Suggest alternatives where beneficial.*

- c. Health and Safety Compliance: Verify that all recipes meet local health and safety standards and suggest improvements if necessary.*

iii. Operational Assessment

- Review the current state of SEVEN's operations standards taking into considerations the cuisine/experience, food preparation, service, and customer interaction points.
- Suggest improvements for operational workflows to increase efficiency and customer satisfaction.
- Develop and implement standard operating procedures (SOPs) for efficient and effective operations.
- Set-up the operating entity and ensure its full readiness (i.e., set up its systems, processes, and ensure all logistical items and government related licenses are issued)

iv. Market Positioning

- Analyze the market positioning of the F&B venues within the entertainment complex and compared to local competitors.
- Recommend strategies to enhance visibility and attractiveness to the target demographic.

v. Financial assessment

- Develop the in attractions F&B business plan.
- Assess the pricing for the menu items in alignment with SEVEN, and the potential bundles for the different concepts.

b. Operation of F&B venues (Phase two)

i. Day to Day operation

- Manage day-to-day operations of the food and beverage outlets.
- Ensure compliance with all applicable laws, regulations, and health and safety standards.
- Develop and implement standard operating procedures (SOPs) for efficient and effective operations.
- Implement quality control measures to maintain consistent service and food quality.

ii. Menu execution and food preparation

- Ensure ability to execute on diversified menus that appeals to different consumer preferences.
- Source and procure high-quality ingredients and supplies.
- Ensure proper food storage, handling, and preparation techniques.
- Maintain cleanliness and hygiene standards in the kitchen and food preparation areas.
- Deliver branding elements and packaging from stage 1, and source appropriate suppliers.

iii. Staff Management and Training

- Recruit, train, and manage competent and customer-oriented staff.
- Develop training programs to enhance the skills and knowledge of the F&B team.
- Maintain a positive work environment and enforce appropriate employee conduct.

iv. Financial management

- Develop and manage the annual budgets for the F&B operations.
- Implement effective cost control measures to optimize profitability.

- Maintain accurate records of sales, expenses, and inventory.

v. Guest service and satisfaction

- Provide excellent customer service and ensure guests' satisfaction.
- Handle customer inquiries, complaints, and feedback promptly and professionally.
- Continuously monitor and improve guest experience and service quality.

vi. License

- Obtain all necessary health, safety, and business licenses required for operation.

vii. System

- Assess the compatibility of the existing systems with SEVEN's IT infrastructure.
- Recommend the way forward based on the operator assessment while ensure this does not impact the quality or service, procurement, and produce offered.
- Implement the required system leveraging SEVEN's technological capabilities.

viii. Compliance and Reporting

- Ensure continuous compliance with all local regulations and licenses.
- Regularly report on financial performance, customer feedback, and operational metrics to inform strategic adjustments.
- Operator must obtain Approval/signoff on any menu changes, design, staff headcount, training programs.

ix. Proposal Documents

- High-level technical proposal and commercial proposal (Separate for each phase) including but not limited to:
 - Brand review/concept assessment approach.
 - Culinary review and optimization recommendation including Logistics and sourcing approach.
 - Operations readiness plan.
 - Market assessment and positioning report.
 - Hiring/training strategy
- Detailed profile of the company showcasing capabilities and financial performance, as well as full footprint across the different categories.
- Detailed timeline for phase 1.
- High-level heads of terms for phase 2.

x. Clarification

- Operators can bid for one experience/location or more by filling the bidding form.
- Preferably Operator shall cover full typology in all locations for example (Cafe G&G in all locations).
- Opening date might be shifted based on the progress of the projects.
- Menus are developed for all concept SEVEN FEC, and Junior FEC.
