Request for Proposal to JCSA

RFP Food Supply Riyadh Season and General Requirement

August 2024

RFP Contents Table:

- 1) Project Overview
- 2) Scope of Work
- 3) Food and Beverage Requirement
- 4) Food Safety Standards
- 5) Financial Summary
- 6) Timeline and Next Steps

1) Project Overview

The Jockey Club of Saudi Arabia (JCSA) operates 365 days per year providing various food and beverage related services including but not limited to: staffing requirements such as breakfast, lunch and dinner, event retail, restaurant and private hospitality.

The services highlighted above are targeted towards a wide demographic of people including the labor team, administration staff, general-public, high-profile clients and royalty. In addition, these services are delivered all year round to cover the Riyadh Racing Season, The Saudi Cup and non-racing related events such as conferences.

This RFP is focusing on sourcing a food and beverage supplier to provide the wide range of materials required to service The Jockey Club of Saudi Arabia. The supply requirements will start at the end of September 2024.

2) Scope of work overview

This is a unique opportunity for a third-party food supplier to be part of the globally recognized venue which hosts The Saudi Cup and the Riyadh Racing Season. In addition, this will enable the third-party operator the ability to become a potential partner with JCSA as the preferred food and beverage supplier.

Th JCSA have provided the details within the RFP for the third party to be able to provide a detailed road map approach, along with a financial summary to ensure JCSA requirements are met.

The JCSA will be seeking to ensure the appointed third-party can provide case studies of working with similar organizations and show proven examples of similar arrangements.

2) Food and Beverage Requirement

A detailed stock list of items required is attached **in appendix 1**. This has been included as a guide only with requirements and volumes subject to change. Please note that the stock list will be further discussed during the technical evaluation stage.

4) Food Safety Standards, Qualification and Insurance

JCSA expects all food and beverage related third-party operators to observe good food safety practices and work within all relevant legislation. JCSA will retain qualified food safety and quality control personnel and reserve the right to audit and correct all operating practices.

In addition, JCSA will expect to receive copies of all delivery notes along with an agreed delivery process to suit the JCSA's requirements. Please note that a proposed delivery timetable will be shared during the technical evaluation. However, the selected third-party will also need to be flexible to suit the requirements of the JCSA.

The third-party operator will have to provide insurance details, relevant license and qualifications enabling them to legally comply with providing the services required. The third-party operator will also provide HACCP information as well as allergens.

included so that if meal numbers increase or decrease on a certain day this financial figure can be recorded.

7) Financial plan

Third -party operators must submit their detailed business plan against the financial numbers, details and timings included in this document. Please note, the details remain flexible as highlighted in the change control planning.

Please note that the JCSA may have partnership agreements that determine the supply of certain products on site. The JCSA reserves the right to ensure all catering partners work in accordance with these supply agreements.

The total budget allocation for this project is within a maximum remit of **XXXXXXXXXXXXX**. The budget remit is to include servicing the full scope of work itemized within the RFP. Please note this budget remit is a guide and based on the proposed requirements at this stage.

Any financial proposal that exceeds the budget remit will be automatically excluded.

Site visits are essential before any final submission is made. Site visits can be arranged through the below contact details summarized in the next steps.
